Professional Summary

Detail-oriented and adaptable entry-level developer with experience building technical solutions across web development, data automation, and enterprise applications. Skilled in designing user-friendly interfaces, integrating APIs, and creating clear, functional solutions from real-world technical requirements. A recent graduate who brings genuine curiosity to new challenges, asks thoughtful questions, and works steadily toward well-informed, effective results.

Technical Skills

- Languages: C++, CSS, HTML, Javascript, Python, SQL
- Tools: Docker, GitHub, Ignition, Microsoft Power Platform, MSSQL Server, Postman
- Competencies: Agile Collaboration, Application Development, Data Analysis, Debugging, Responsive UI Design, REST API's, Scrum Methodology
- Soft Skills: Adaptability, Collaboration, Detail-Oriented, Process and Documentation Oriented, Self-Directed Learning

Education

J.B. Speed School of Engineering, University of Louisville
Bachelor's Degree, Computer Science

Aug 2021 - May 2025

Capstone Project

Diversified Automation: SCADA System for Small Airport Baggage Handling
Team Member

Aug 2024 – Dec 2024

- Designed and implemented a supervisory control and data acquisition (SCADA) system with a focus on UI development and SQL database integration
- Collaborated with team members to complete phase 1 of project and present progress to stakeholders
- Delivered a working prototype tailored for small airport environments
- Became familiar with tools such as Docker, MSSQL Server, Azure Devops

Work Experience

American Commercial Barge Line
HRIS Intern

Sep 2024 – Nov 2025

- Maintained and configured payroll and timekeeping software systems for vessel operations
- Analyzed employee and crew data to identify system inefficiencies and employ improvements
- Developed a digitalized Crew Log solution to replace deprecated software for over 100 barge towing vessel crews
- Highlighted discrepancies between schedules and actual timecard data using said Crew Log solution to build reports with data that had not been utilized before

The Academy of Louisville
Academic Tutor

Aug 2023 – Dec 2024

- Supported high school students in developing study plans and mastering academic concepts
- Coordinated Homework Hall independently, ensuring student accountability and progress
- Communicated regularly with parents and teachers to enhance student outcomes

Asurion
In-Home Expert

Aug 2022 – June 2023

- Delivered and set up replacement cell phones for Asurion customers
- Communicated with customers to ensure successful delivery and set up via phone calls and messages
- Resolved issues relating to data transfers, cell carrier, resetting passwords, etc.
- Sold home technology protection insurance to customers
